

## Memorandum of Understanding on renewable hydrogen and synthetic fuels

Rio de Janeiro, June 27, 2024, Centrais Elétricas Brasileiras S/A – Eletrobras, informs that it signed a Memorandum of Understanding with Suzano for the development of sustainable solutions based on the use of biogenic CO<sub>2</sub> generated in Suzano units.

The partnership around the use of renewable raw materials foresees the development of joint technical and economic feasibility studies for the construction of a renewable hydrogen and synthetic fuel production unit, aiming to replace fossil fuels in various logistical modes.

In recent months, Eletrobras signed a series of memorands of understanding aiming to expand its studies on renewable hydrogen and its derivatives, with companies such as Paul Wurth do Brasil, Green Energy Park Global B.V, Prumo Logística and the governments of the states of Ceará and Maranhão.

Eletrobras continues to contribute to making the Brazilian energy matrix one of the cleanest and most renewable in the world and reaffirms its commitment to sustainable development, innovation and excellence.

Eduardo Haiama
