This adhesion will allow the conclusion of administrative and judicial discussions relating to CIDE, PIS and COFINS from 2008 to 2013, in the total amount of R\$44.79 billion. The contractual modeling used by the Company was corroborated by Laws 13.043/2014 and 13.586/2017 and, as a result, since 2014 the infraction notices in this matter have ceased. The full amount is detailed in Note 19.3 - Litigations not provisioned in the financial statements (DFP) for the 2023 fiscal year.

Several partners in the E&P consortiums are responsible for approximately 13% of this transaction litigation and Petrobras is negotiating with other consortium members the reimbursement conditions of the amounts relating to their respective shares.

Adhesion to the Program results in financial benefits to the Company, since maintaining these discussions would imply in a financial effort to offer and maintain legal guarantees, in addition to other procedural costs and expenses.

Finally, adherence to the Program was analyzed by the Statutory Audit Committee and the Company's Minority Committee, which did not identify any obstacles to its implementation.
