

Memorandum of Understanding on renewable hydrogen

Rio de Janeiro, June 05, 2024, Centrais Elétricas Brasileiras S/A - Eletrobras, informs that during the Hydrogen Expo South America, held in Rio de Janeiro, it signed today a Memorandum of Understanding with Prumo Logística, the holding company that develops the Port of Acu, to evaluate the implementation of low-carbon projects in the port-industry located in the North of Rio de Janeiro (RJ), with a focus on the production of renewable hydrogen and its derivatives.

The agreement will evaluate the technical, environmental and economic-financial feasibility of installing the plant, as well as the use of resources for research and development or public and private financing to encourage related projects, contributing to boosting the green economy and energy security.

Eletrobras continues to contribute to making the Brazilian energy matrix one of the cleanest and most renewable in the world and reaffirms its commitment to sustainable development, innovation and excellence.

Eduardo Haiama

Vice President of Finance and Investor Relations
